## Odd Ball

The award for the gutsiest effort of the day goes to Sue who managed to pick herself up off the ground and go over the finish line with blood on knees and hands. Not that she got a lot of sympathy - heartless lot! Inspiration of the day is Ivor, he still manages to make the most of a situation and with his usual grin took the opportunity to play with Sue's legs when he was meant to be helping her - Ivor you are a legend - if this is what walking does for you then I hope to be still going in my 80s. I don't normally talk about worst performances of the day but for this once I have to have an exception - Vanessa - last year best performing Senior Woman, this year worst Junior - what a fall from the dizzying heights you have achieved in the past.

Perfect conditions at last at Bell Block; I never thought we could lose our hoodoo of bad weather. Normally it is either torrential rain or blowing a gale or both. This year we had sunshine with a little zephyr. Mind you in keeping with this event attracting odd balls we only had 27 entries compared to 29 last year when the weather was horrible - what does that tell you about some of us!

There was the usual chatter for the first 200 metres in a mass start event, but today the racing seemed to get under way a bit quicker than normal. Eric left the majority in his wake with Harry the only one to initially chase after him. Rachel decided the pack was too slow and took off after Harry. Rachel ended up catching and passing her man and was first woman home in 62m41s for the 10.85 km (good time but must try harder in estimating). The usual procession then began with Jeff, Mike, Marlene and Tony after his usual slow start. Marlene seemed to start too fast and faded towards the end with Serena giving her a fright in the last lap.

There were some great individual battles today, but this is an estimated time event and believe it or not, the winner is the one with actual time closest to estimate (some of you still haven't learnt - Marlene and Dave in particular). Sherryn who is getting fitter and faster with each event gave me real hurry up today, I just held her out but not only did she do a great time she was only 8 seconds off estimate to move to the top of the Points table. Neil has had a new lease of life and tied for 1st place with only 8 seconds difference and moved to second in the points just behind Sherryn. Neil also took fastest vet time in

44m22s for the 6.4K distance. Eric had fastest time of the day in 59m25s, a minute quicker than last year, and a great estimate as he tied for 3<sup>rd</sup> only 10 seconds over his time. Ivor was also only 10 seconds over estimate. Mr. Metronome (Arthur) is never out of the points in an estimated time event getting up for 5<sup>th</sup> just 15 seconds over. Arthur has once again

volunteered to give lessons before the Norm Read next week to those who still don't understand this concept of estimation. Ivor has also volunteered his services as well, but I didn't dare go into detail with him!

4 Juniors raced again today and at last we had a female. Noah Campbell took the honours of closest to estimate with Jacob Campbell second. Girl power was the order of the day in the speed stakes (well discounting Vanessa anyway), as Hannah Gilberd managed a great 11m43s for her 1.55km lap.

Many thanks to Marion and Peter for organising the morning tea at Taranaki Saw Mills - such a great facility, also a great job done by Trevor and Marion on time keeping duties. Still reckon you made me do 8 laps though - felt like it anyway.
